QUALITY, SAFETY, ENERGY AND ENVIRONMENT

Policy

This policy is our commitment and aligns with our mission, vision and the principles of the Sugal Business System (SBS).

Passion for quality

We are constantly focused on satisfying the needs of the food industry in tomato processing, guaranteeing the authenticity and quality of our products, the safety of people and promoting more sustainable operations with the design and acquisition of energy efficient products and services.

Be a team

We want to be ONE, working as a team towards a common goal, developing the skills of our employees through our culture of safety, personal safety, energy efficiency and environmental protection.

Commitment

We are committed to continuous improvement in producing safe and sustainable quality products, reducing food losses and waste by providing safe and healthy working conditions, eliminating hazards and controlling risks, actively contributing to the preservation of the environment, environmental and energy performance.

Excellence

We seek excellence defining and updating our objectives and goals, ensuring the availability of information and resources to achieve them, promoting continuous improvement, implementing and maintaining management systems, complying with legislation and the requirements established by the industry and other stakeholders.

Integrity

We develop bonds of trust by maintaining an effective communication system, working in a consistent and transparent manner, promoting consultation and participation of employees, suppliers, customers, communities and other industry stakeholders.
